"At Zillow, we're proud to partner with Casita Coalition to unite experts to tackle the housing supply challenge. Our research shows we are millions of homes short of meeting housing needs. Meaningful action is needed." – Dr. Orphe Divounguy, senior economist at Zillow.

The <u>Casita Coalition</u> is the only statewide, multi-sector nonprofit organization focused on removing barriers to ADUs and middle housing. This month, four Casita Coalition-supported middle housing bills were signed into law in CA. Our founders co-wrote the first and subsequent California statewide ADU laws, creating a sweeping win for middle housing that has in five years resulted in more than 84,000 permitted ADU homes in California. Our inaugural policy convening will bring together housing leaders from across the nation to identify and tackle the remaining barriers holding back production of affordable infill homes.

"Inspired by Meta's mission to give people the power to build community and bring the world closer together, the Meta Housing Initiative aims to work with community and elected leaders, organizers, and businesses to advance innovative housing solutions that will result in homes for all. We are proud to call Casita Coalition a partner in advancing innovative solutions that help address the affordability crisis." – Ryan Patterson Director of Strategic Initiatives at Meta
